

# Internship

## Investment Management

---

Entering the job market is challenging and finding a rewarding job in Asset Management and Investments is harder still.

Atlantic Asset Management is extending its current modular internship program for 2012 to run for the full year. We are looking for graduates who are passionate about the fixed income asset class, who are knowledgeable in their field and willing to work hard and learn a wide array of skills. The internship will include exposure to many different parts of the investment industry. At the end of the program there is the potential opportunity for continued full time employment at Atlantic.

Graduates and Post-Grads with a wide array of educational backgrounds and skills are encouraged to apply – from actuarial, accounting, economics and finance students to mathematics, statistics, physics or IT— and anything in between.

Send us your CV along with a cover letter for applications to:
